Meissner Glasraffinerie G. M. B. H.

Coswig near Dresden

Special Factory for Electric Lighting Glassware

At the Leipzig Fair: Handelshof, 4th Floor, Stand and Boxes 433—441

C O N D I T I O N S O F S A L E

Prices as quoted are in English currency for delivery F.o.b. Hamburg, seaworthy packing included.

All goods are despatched at Purchaser's risk and account. We do not accept responsibility for any damage or loss in transit, and prices are not including insurance. If specially instructed on the order sheet, insurance against breakage and all risks in transit can be covered at special charge; the premium varies according to destination of goods.

Whilst using our best energies to ensure prompt despatch, we can accept no claim for delay in delivery, and all delivery dates are not obligatory. All orders are subject to main act such as strike, war, deficiency of materials etc.

Extra costs will be charged for any special packing required.

We have adopted a special method of packing in cases made of three ply wood, giving enormous reductions in weight without increasing the risk of breakage. This is of special advantage for all markets, where duties are charged by the Custom Authorities from gross weight of consignments.

If indicated on the order sheet, these cases made of three ply wood will be used for packing. Extra charge sh 15/- per 40 cbl.

Failing special instruction, packing will be done in seaworthy wooden cases as usual.

All goods will be supplied as illustrated, but we are reserving to ourselves the right to substitute nearest in price and quality any models not in stock.

Any special terms deviating from our order confirmation and from our conditions of sale are not valid, unless confirmed in writing.

Payment to be effected against remittance of documents.

Glasses illustrated in this catalogue are those which we stock. Any old types of Bowls or Shades not illustrated in this catalogue can only be supplied on a minimum quantity of 12 pieces of one particular shape to be ordered in one consignment.

In view of the fluctuations in exchange we must reserve to ourselves the right to accept any order coming in. In case we receive after acceptance of an order unsatisfactory informations, we have the right to stipulate new terms of payment or to refuse delivery.

For an exact declaration of goods all necessary details must be given on the order form; failing special information we must decline any responsibility for fines arising by incorrect declaration.

All novelties illustrated in this catalogue are our mental property and patented for our firm. Any imitations will be prosecuted.

Claims can only be considered, if notification is given within ten days after arrival of goods. Any damages or shortages must be reported to the Insurance Company, and a survey report must be made out by their Agents.

In the event of any differences arising, the matter will be referred to the court of justice in Dresden, to the verdict of which both parties will have to submit.

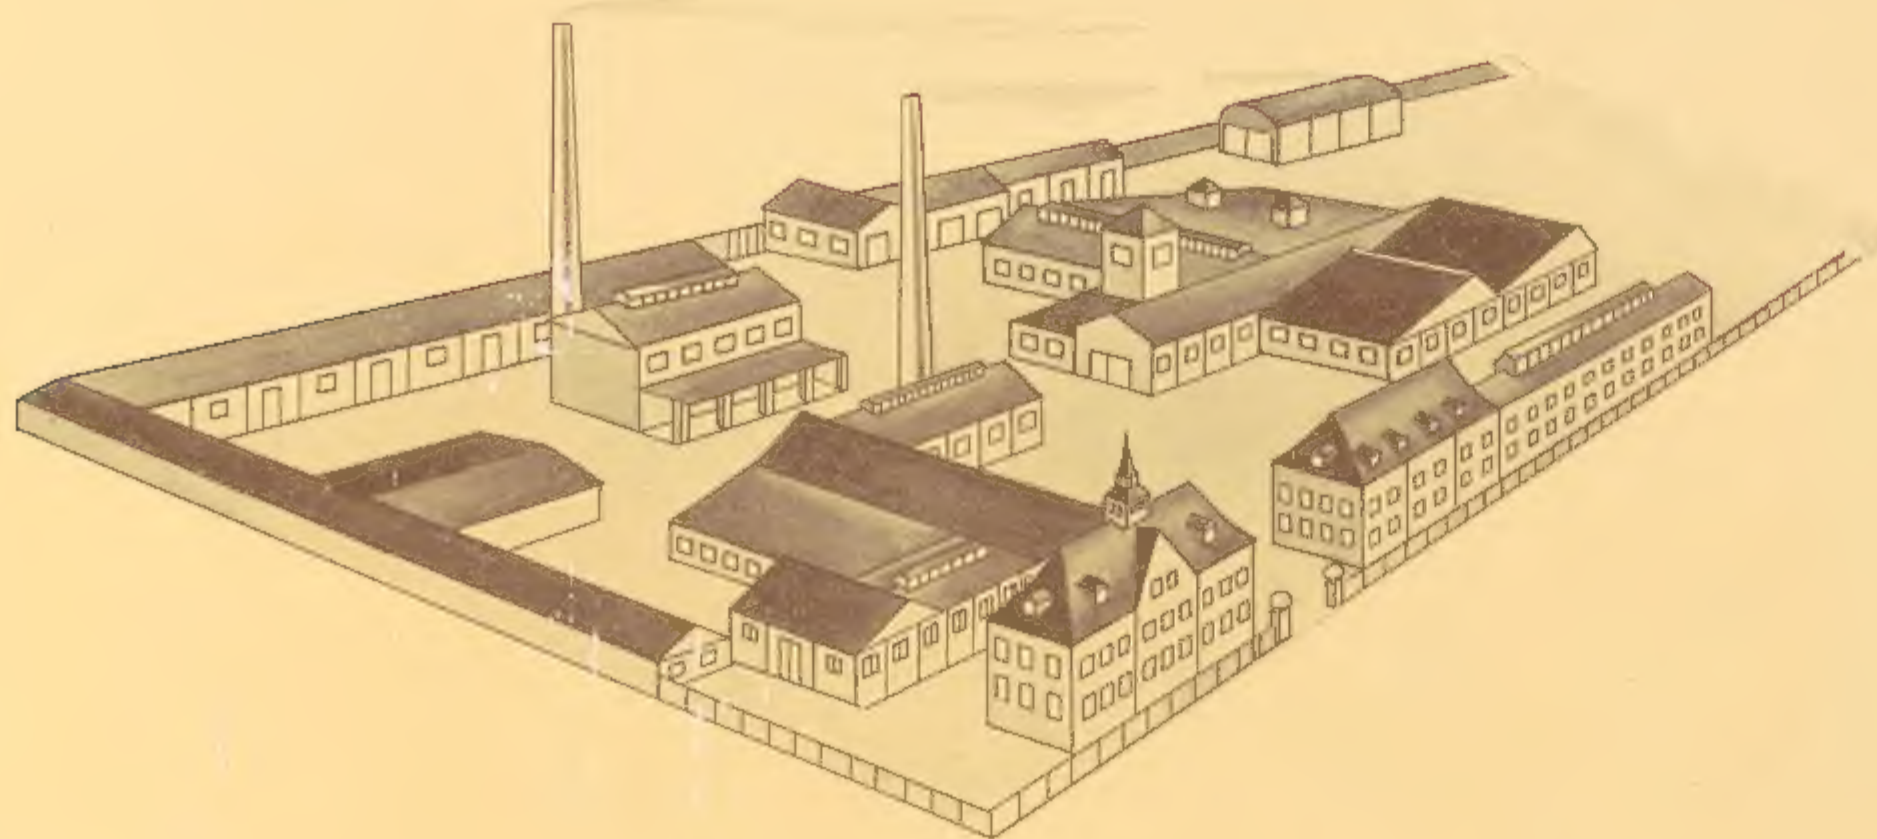

All payments must be directed to Coswig.

All glasses are supplied with in-burnt decorations being absolutely fast, and every "Meissen" product guarantees entire durability.

When ordering please state finish of metal parts required.

All Lighting Fittings are supplied without Lampholder, but with $\frac{1}{2}$ " Nipple.

This catalogue cancels all previous editions.

Worth knowing about "MEISSEN"-Lighting-Glass

"CYROPHANE" Glass

is an artificial product of lighting and is a registered design to us.

"CYROPHANE" is a qualitative product created by years of experience and has the following advantages:

Cloudlike inside panels form either lightened or unlightened reflexes of a silklike appearance and at the same time give a guarantee for the efficiency of lighting. It is therefore advisable that our range of Cyrophane Glass is given your best attention, and you will soon learn that a very peculiar accomplished range of modern Lighting Fittings is offered.

"CARALITE" Fittings

are a registered design to us. By a special method of fabrication the efficiency of light is still increased and creates a wax-matted appearance of best special presentation.

"MEISSEN" Decor Fittings

have always been considered as creations for taste and art. The efficiency of the real burned colours with "Meissen" Glass is largely increased by the crystal-glaze of the glass and the decoration itself. Tasteful and smart decorations form products of highest achievement and best presentation.

"GUARANTEE" for durability is given, and it is also guaranteed that the finish is lightproof in every respect.
